 - Queue
 - Events
 - Jobs
 - Listeners
 - Observers
 - ORM
 - Cache/Redis
 - Resources
 - MVC
 - Command
 - Cron
 - RestFUL API
 - Eloquent
 - Actions
 - Routing
 - Pusher/Reverb
 - Services

FRONT END

- Vue JS
- Inertia JS
- React JS
- Blade
- Livewire
- HTML
- CSS
- Tailwind CSS
- Bootstrap CSS
- JQuery
- JavaScript ES6
- Pinia JS
- TypeScript

VERSION CONTROL

- GitHub
- GitLab
- BitBucket
 - CI/CD

AI INTEGRATION

- Open AI
- Chatbot

DATABASE & DEPLOYMENTS

- MySQL
- PostgreSQL
- XAMPP
- Cpanel
- FTP / File Manager
- Domain / DNS Config
- SSL Installation
- Shared Hosting Config
- SSH
- CLIs
- Supervisor
- Cron
- AWS S3

API INTEGRATION

- RestFUL API
- JSON / XML
- Third Party Integration
 - Payment Gateway
 - PayMongo
 - Stripe

API DOCUMENTATION

- Swagger UI
- Open API
- Postman

TECHNICAL SKILLS

CMS & E-Commerce Platform

- WordPress
 - Custom Theme
 - Plugin Integration
 - Elementor / Divi
 - Page Builder
 - RestFUL API Integration
- Shopify
 - Shopify Theme
 - Shopify App Integration
 - Store and Product Config
 - Shopify API Config

AI EXPERIENCES

- Claude AI
- Gamma AI
- Co Pilot
- Chat GPT
- Gemini
- Perplexity
- Open AI
- Sage Pilot
- DeepSeek

Design & Collaboration

- Canva
- Figma
- Illustrator
- Jira
- Trello
- Slack
- Teams
- Github
- GitLab
- BitBucket

WORK EXPERIENCE

Full Stack Web Developer | Hospital System | Team Development

Segworks INC – HYBRID (PH) | 2019 - 2020

Collaborated with cross-functional and development teams to identify and prioritize features, while debugging and refactoring queries to improve the efficiency of hospital systems and other projects.

STACKS: Vanilla PHP | Laravel 5.6 | Yii 2 | React JS | Bootstrap CSS

Full Stack Web Developer | E-Commerce, POS | Team Development

Artisan Developers – REMOTE (PH) | 2020

Collaborated with cross-functional teams to identify and prioritize features and requirements. Debugging, Refactoring queries to improve efficiency of the site. Developed outsourced e-commerce projects using a variety of platforms and frameworks, including WordPress, Shopify, and Laravel

STACKS: Shopify | WordPress | Laravel | Bootstrap CSS | Photoshop

Full Stack Web Developer | Escort Apps, Real Estate Sites | Team Development

FoxComm Ltd – REMOTE (AU) | 2020 - 2023

Developed and implemented highly scalable and robust software solutions for major projects. Collaborated with cross-functional teams to gather requirements, analyze user needs, and define software specifications. Built projects from the ground up, ensuring secure and efficient solutions using Laravel, Vue.js 3, and Inertia.js. Additionally, developed blogs and e-commerce sites using WordPress, and created a comprehensive real estate platform from scratch using Laravel.

STACKS: WordPress | Laravel | Vue JS 3 | Inertia JS | Tailwind CSS

WORK EXPERIENCE

Backend Developer | POS, Gambling API | Team Development

CresCode – REMOTE (US - PH Agency)

Developed a secure and efficient RESTful API with Sanctum authentication, utilizing Swagger UI for testing and validation. Collaborated with cross-functional teams to gather requirements, analyze user needs, and define clear software specifications.

STACKS: Laravel | Sanctum | Swagger UI | RestFUL API

Full Stack Web Developer | OnerAPP AI for SEO | Solo Development

Nest18 – REMOTE (US) | Freelance

Developed a comprehensive AI-powered application that allows writers to easily select trending headers based on search engine data using OpenAI's capabilities. Designed a user-friendly, visually appealing interface that adapts seamlessly to different devices and screen sizes, maintaining a clean and modern aesthetic to enhance user experience and engagement. Built a sophisticated AI platform capable of generating high-quality articles and tailored headers for writers.

STACKS: Laravel | Vue JS 3 | Inertia JS | Tailwind CSS

Full Stack Web Developer | Haircut Scheduling App | Solo Development

Celebrity Men's BarberShop (PH) | Freelance

Developed a haircut scheduling website using Laravel with VueJS, InertiaJS and Tailwind CSS for styling. Built a multitenancy system for salon management, allowing users to select their preferred salon branch, choose available dates, and book appointments. Enabled clients to select barbers or stylists based on real-time availability for their chosen date and time, ensuring a smooth and efficient booking experience

STACKS: Laravel | Vue JS 3 | Inertia JS | Tailwind CSS

Full Stack Web Developer | Car Rental App | Solo Development

VPI Cars Manila – REMOTE (PH)

Developed and launched new features for a nationwide car rental service, including a user-friendly online booking platform that allows customers to reserve cars, select pickup and drop-off locations, and choose from various models. Implemented secure, automated payment systems supporting credit/debit cards and digital wallets for fast transactions. Built the VPI Car Manila platform using Laravel, Vue.js, and Tailwind CSS, and developed microservices for the site using RESTful APIs.

STACKS: Laravel | Vue JS 3 | Pinia JS | Tailwind CSS | Paymongo | n8n | make | RestFUL API | Sage Pilot

Full Stack Web Developer | Government Project – MSWD | Team Development

TITAN Corp – REMOTE (PH)

Developed the MSWD website using Laravel, Vue 2, and Bootstrap, creating a comprehensive government system for Makati similar to PhilHealth applications. Built a centralized public services platform that allows citizens to access healthcare, social welfare, and municipal services in one place. Designed a responsive and intuitive user interface to ensure ease of navigation and accessibility for a diverse population.

STACKS: Laravel | Vue JS 2 | RestFUL API | Bootstrap CSS

WORK EXPERIENCE

Full Stack Web Developer | Heavy Equipment Rental | Solo Development

RCSC Ltd – REMOTE (US)

Developed a full-featured heavy equipment rental platform using Laravel, Vue.js, and Inertia.js. The system enables efficient booking, real-time inventory management, and seamless customer interactions. Designed and implemented a responsive, user-friendly interface to ensure accessibility across desktop and mobile devices. Focused on optimizing user experience for a diverse range of users while maintaining system performance and scalability.

STACKS: Laravel | Vue JS 3 | Inertia JS | Tailwind CSS | Stripe API | CalendarJS | ChatGPT

Full Stack Web Developer | Wisteria Online & Wasteland MMORPG | Solo Development

MMORPG GAMES (Personal Projects)

Built modular PvP and PvE systems featuring real-time polling, pause/resume controls, and scalable event triggers. Created immersive zones, factions, and quest lines inspired by Filipino culture, incorporating witty in-game humor. Designed responsive interfaces optimized for both desktop and mobile players, ensuring intuitive navigation and accessibility. Developed forums, guild management tools, and event calendars to enhance player interaction and retention.

STACKS: Laravel | Vue JS 3 | Inertia JS | Tailwind CSS | Canva | ChatGPT | Co Pilot

Full Stack Web Developer | Scheduling App for 3D Laser Scanning | Solo Development

GuttVannm Architect – REMOTE (US)

I developed a scheduling app for architectural laser scan requests for GuttVann Company. I built it using Laravel, Vue, and InertiaJS, allowing clients to automatically see the shortest route for technicians to their project location when booking, view all their scan requests, and see all scheduled appointments. I created this system to streamline and simplify finding the most convenient scheduling times for clients.

STACKS: Laravel | Vue JS 3 | Inertia JS | Tailwind CSS | Figma | ChatGPT | Co Pilot | Stripe API
